REASONS FOR ALLOWANCE

1. Claims 30-45 are pending.
2. The following is an examiner's statement of reasons for allowance:
3. The claims are directed to a method for detecting an antigenic epitope in a cell surface, comprising contacting said antigenic epitope with an antibody having a binding affinity to said antigenic epitope, wherein said antigenic epitope is of a complex formed between two members of a binding couple as described in Claim 30, (i)-(iii). The method for such detection is novel because the priority applications, now patents (US 6,020,468 and US 5,925,741) disclose such antibody and monoclonal antibody, respectively and its divisional application, 09/645,648, discloses such an antigenic epitope. The method for detecting such an antigenic epitope on a cell surface using such an antibody, therefore, would be novel.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance." Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hankyel T. Park whose telephone number is 571-272-0907. The examiner can normally be reached on 6:00 a.m. -2:00 p.m. Mon-Fri.
